AVIATION DEPARTMENT

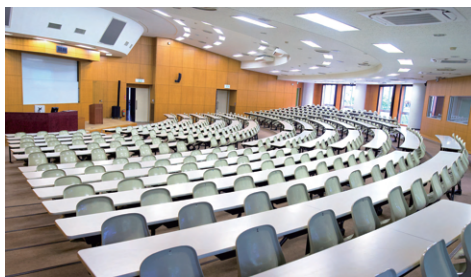

Aeronautical Engineering Course

— Aviation Mechanic Stage

General Course

- IT Stage
- General Stage
- Pilot Stage
- Cabin Attendant Stage
- Athlete and Art Stage

- The school provides extensive opportunities for the students' development in various fields including aviation, art, sports, further education and international education.
- International students can enter the school with no prior knowledge of Japanese and reach the standard required to pass the Japanese Language Proficiency Test N1 (the highest level) or N2 before graduation.
- We have international division teachers who are in charge of guidance for international students and Japanese language education.
- There are dormitories, a dining hall, a convenience store, a post office ATM, laundry rooms, baths, and other public areas on campus.
- After graduating from the high school, the students can progress directly on to the attached vocational school on the same campus which has a 100% employment rate. This is the highest in Japan.
- Guidance and recommendations are provided for students to enter many universities in Japan and special guidance is also provided for international students to go on to higher education.

Japan Aviation Academy operates six schools on four campuses. There are three high schools in Yamanashi, Ishikawa and Hokkaido, a junior high school attached to the high school in Yamanashi and two colleges in Ishikawa and Hokkaido. Correspondence courses are also provided. In the long history of the school, which has now reached 92 years, Ishikawa school is a new campus that opened in 2003. As one of the largest full-time high schools in Japan with an aviation department, it fosters human resources who can contribute widely to society and boasts a high employment record through integrated high school and college education. In addition, there is ample support for going on to university and club activities which achieve excellent results in national competitions.

We are a full-time regular high school.

- ▶ There are Japanese language courses for all levels of international students.
- ▶ You can choose to go on to a four-year university course and there will be special guidance for the university entrance examination in the third year of high school.
- ▶ You can interact with Japanese students and international students on a daily basis to improve your language skills.

[NOTE] Japan Aviation High School Ishikawa, Noto Airport Campus was affected by the Noto Peninsula earthquake that occurred on January 1, 2024 and moved to a new campus in Ome City, Tokyo. The new campus is large with an area of 800,000 square meters. In addition to the school buildings, dormitories, and library, there are also sports facilities such as a gymnasium, soccer fields, baseball fields, and tennis courts. No matter how difficult it may be, we will do everything we can to support our students in achieving their dreams. It's a new starting point for realizing dreams. Let's do it together!

Pursue your dreams and become the best version of yourself

Here you can realize your potential and enjoy your youth to the full.

Here you can find your future direction and discover a better version of yourself.

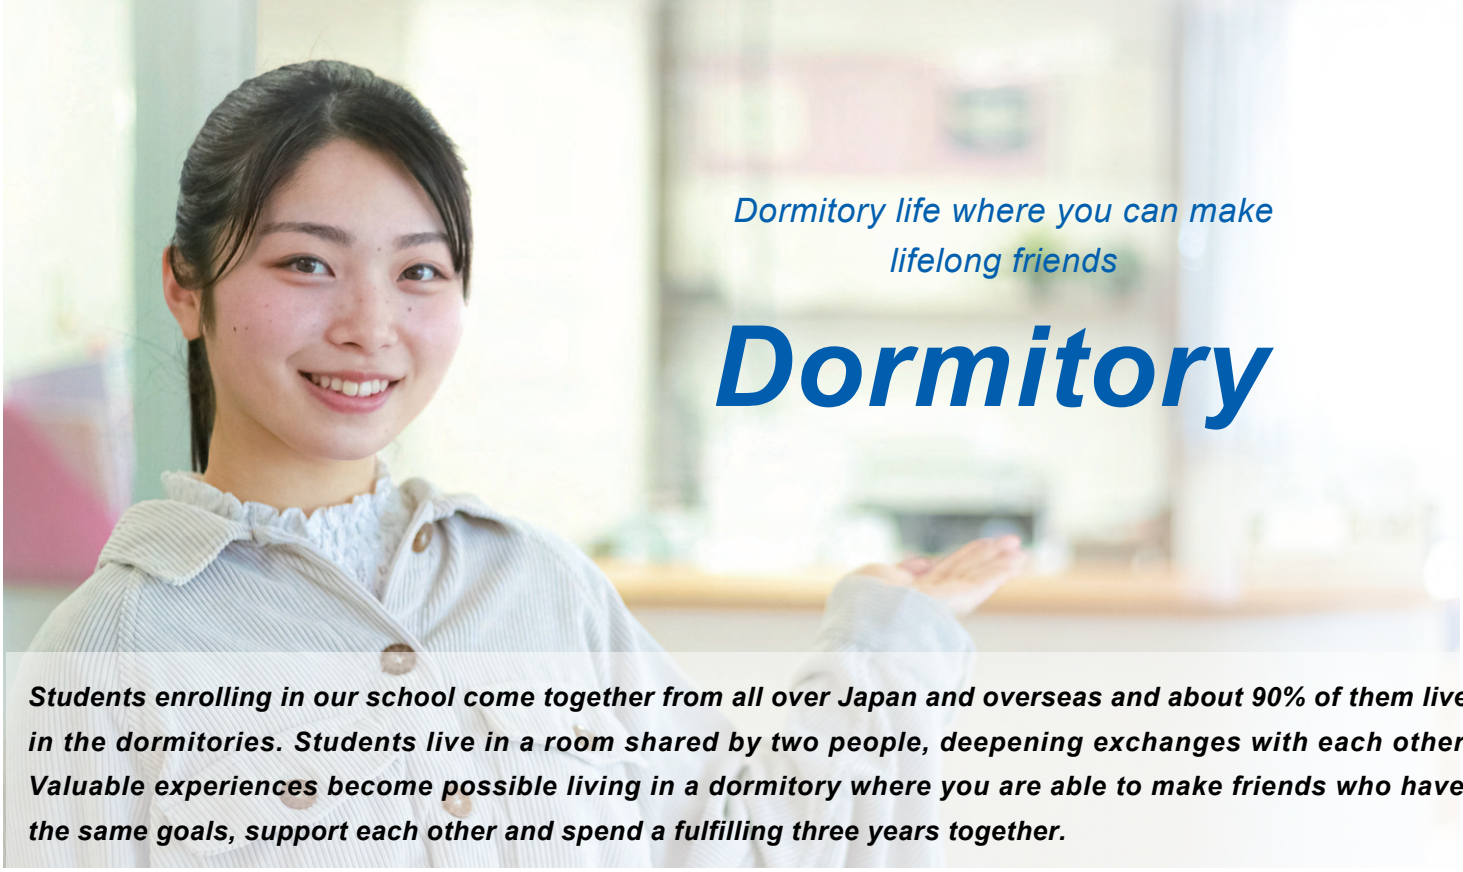

Here you can grow together with students from all over the world.

The attached college is the oldest and largest aviation educational institution in Japan, boasting an extremely high employment record of engineers, mechanics, cabin attendants, ground staff and pilots.

- An outstanding employment record! The employment rate has reached 100%.
- The only place in Japan where you can practice on large aircraft on campus.
- Training on large helicopters is also provided on the Noto campus.
- Company information sessions and job examinations are held on campus.
- Major airlines and heavy industry companies visit our campus annually.
- Strong in qualifications! Become qualified as a first-class aircraft operation mechanic while still in school.
- A large number of cutting-edge CATIA technologies.
- 3D CAD systems "CATIA", which is the standard in the aviation industry to train design engineers.
- Strong in languages! A high level of English proficiency provided in English classes taught by native teachers.

*Dormitory life where you can make
lifelong friends*

Dormitory

Students enrolling in our school come together from all over Japan and overseas and about 90% of them live in the dormitories. Students live in a room shared by two people, deepening exchanges with each other. Valuable experiences become possible living in a dormitory where you are able to make friends who have the same goals, support each other and spend a fulfilling three years together.

- **Learning support in the dormitory** After dinner, you can receive individual guidance by teachers.
- **A balanced and healthy diet** We offer a wide ranging and delicious menu with excellent nutritional balance in a dining hall that can accommodate five hundred people. Special arrangements for food allergies and halal foods are also available.
- **Safe and comfortable dormitory environment** Equipped with air conditioning, Wi-Fi, and an infirmary, you can live a healthy and comfortable dormitory life. There is also a laundry room, a large communal bath, and private shower booths. The dormitory supervisor works 24 hours a day to maintain high security.

International education & support for international students

- **International students up until now** have come from China, South Korea, Mongolia, Russia, Thailand, Tonga, Vietnam, Bangladesh, Myanmar, Tajikistan, Kyrgyzstan, Palau and even as far as Ukraine, Hungary, Serbia, Mali, the United States and Brazil.
- **Number of international students accepted** International students account for about 10% of the total number of students.
- **Japanese Language Education** Even students who could not speak Japanese at the time of enrollment passed the Japanese Language Proficiency Test N2 by the time they graduated under the guidance of a specialist Japanese language teacher. Many students have advanced to Japanese universities and the attached Japan Aviation College.
- **International education** On the anniversary of the country of origin of international students, the national flag of that country will be raised, flown for the day and celebrated throughout the school. On "International Day", we will introduce each country and deepen mutual understanding of different cultures.

Bright International Student

BUNCHARAS PIYAWUTTISETH, graduated in 2017

Buncharas came to Japan from Thailand with the aim of finding a job in Japan. She was active in the calligraphy club and got JLPT N2. After graduating, she went on to Japan Aviation College and studied design techniques such as 3D-CAD for four years. In 2021, she got a job as a mechanical design engineer at Daiichi System Engineering Co., Ltd. in Nagoya.

Club Activity

19

distinctive club activities

- All students belong to one club and participate in the activities.
- In addition to athletic clubs that are well-known nationwide such as the baseball club and the rugby club, there is a total of 19 clubs including cultural clubs such as the dance club, the brass band, and the calligraphy club.
- The Paramotor club and Motorcycle club allow you to be active in the sky and on land.
- As part of the education process we learn the strength of never giving up and the value of teamwork from the experience of doing your best in everything.
- Each club will be instructed in line with the educational policy of "developing your strengths".

Connect to sports, culture and art activities through club activities

VOICE

I came to Japan because I wanted to broaden my horizons with table tennis. I continued to play table tennis and learned patience and self-discipline. Club activities were fun and made my student life very fulfilling.

JIN SHIWEI,
China, Table tennis club, 2021 graduate

VOICE

The three years I spent here are remembered as a truly wonderful experience in my life that will never be forgotten. I am proud that I completed the dance club activities to the end without giving up until graduation.

ENKHAMAA KHISHIGDEMBEREL,
Mongolia, Dance club, 2021 graduate

School events

Many unique school events such as the aviation festival and various other festivals, marches, musicals, and school trips are held throughout the academic year. You can also participate in various local events and experience Japanese traditional cultures.

Bright International student

SIOSAIA FIFITA,
graduated in 2017

Siosaia came from Tonga as a rugby player. While attending school, he was selected as a member of the Japanese high school national team and took part in a tour of Ireland. After graduating, he went to Tenri University and contributed to the team's victory at the National University Rugby Football Championship in 2021. As a professional player, he has decided to join the prestigious rugby team Toyota Verblitz.

Achievements of international students going on to university

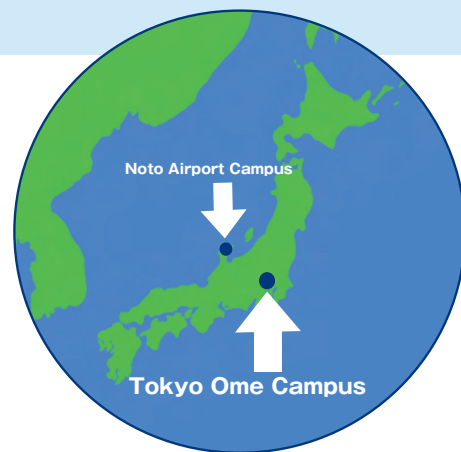

Hiroshima Univ., Kanazawa Univ.,
Shiga Univ., Waseda Univ., Rikkyo Univ.,
Ritsumeikan Asia Pacific Univ.,
Aichi Institute of Technology,
Kansai Univ., Chulalongkorn Univ.,

Ome City is located in the northwestern part of Tokyo, and it takes an hour and a half to get to Tokyo Station on the Chuo Line. There is a direct bus to Haneda Airport that takes almost two hours. The school is surrounded by convenient shopping and transportation, beautiful natural scenery and a quiet environment in which you can study with peace of mind.

About Admission

Q & A

Q1 Is it possible to enter the school without a basic knowledge of Japanese?

A1 Students can enter the school without a basic knowledge of Japanese.
Special Japanese language classes are provided after entering the school.

Q2 How many people are in the dormitory?

A2 The boys have a one-person room with a shared bathroom, toilet and bath.
The girls have double rooms, each with their own space and two students share a bathroom and toilet.

Q3 Can I use mobile phones and computers?

A3 Yes, they can be used. There is wireless Internet access on campus and in the dormitory, so you can use it freely.

Q4 What should I do if I get sick or have a problem in Japan?

A4 At school, there are teachers who are responsible for handling students' problems 24 hours a day.
If you are sick, you can rest in the health room or be taken to hospital by a teacher.

Q5 Are medical expenses expensive?

A5 The school pays the National Health Insurance fee for each international student, so you only have to pay 30% of the medical expenses when you go to hospital.

Q6 Is this school suitable for someone who is not interested in aviation?

A6 Our school has added a variety of special courses that can be selected which are based on the general high school curriculum so even if you are not interested in aviation, you can choose either General Studies or Physical Education Arts.
